

Apricot

Trademark: SONNENSCHNEIN™

Variety: Gartenaprikose

Species: Apricot, *Prunus armeniaca*

Origin:	
Breeder, Place	gräb gbr gehölze und obstbau, kettig, germany
Parents	chance seedling
Property rights	registered for EU trademark
Blossom:	
Blooming date, -intensity	medium late blossom period, ideal to high density
Fertility	partially self-fertile
Pollinator	BERGEVAL™ Aviclo (S), Candide (S), Kioto (S), VANILLA COT™ Select 98 (S), Jengat (S), Vertige (S), Bergeron, Frisson (S), CARMINGO™ Faralia (S)
Frost susceptibility	very low
Fruit:	
Ripening time	medium early, 6-9 days after 'Orangenaprikose'
Scale, shape	medium large, ovoid with a little tip
Colour	intense orange with an attractive red cheek
Fruit flesh	intense orange, finely melting, very juicy
Taste	sweet-aromatic, powerful and long-lasting aroma
Cracking sensitivity	low
Stone separability	freestone
Storage	very good
Tree:	
Vigour	weak to medium strong, semi-upright to spreading, weaker side shoots, even branching and adapted for central leader training, both tree and leaves remain healthy
Crop load	from an early age ideal to high
Evaluation	SONNENSCHNEIN™ Gartenaprikose is a very attractive, productive and relatively cracking resistant apricot with excellent aroma. This variety is a highlight on direct farm sales with its exquisite fruit qualities. Due to its high sugar content it is suited for distilling and processing.
