

# Nectarine

**Variety:** **Mesembrine (S)**  
**Species:** Nectarine, *Prunus nucipersica*

<b>Origin:</b>	
Breeder, Place	INRA, France
Intellectual property	CEP Innovation, France
Crossing number	6606
Property rights	registered for EU plant variety rights
<b>Blossom:</b>	
Blooming date, -intensity	medium blossom period with high to very high density and prolonged blossom
Fertility	self-fertile
Flower shape	rose shape
Frost susceptibility	low susceptibility of flower buds to winter frost
<b>Fruit:</b>	
Ripening time	medium, 7. peach week, 3-6 days after 'Redhaven'
Scale, shape	medium to large flat nectarine
Skin	smooth-skinned
Colour	yellow orange ground colour, > 80 % red to dark red over colour
Fruit flesh	yellow, finely textured, very juicy
Taste	sweet-spicy, slightly nutty
Stone separability	clingstone
Storage	good
<b>Tree:</b>	
Vigour	medium strong, good branching, very well adapted for central leader, good tree health and healthy foliage
Crop load	from an early age regular high yield
<b>Evaluation:</b>	This fairly cracking resistant flat nectarine convinces with its good fruit size and at the same time high crop load. Just as striking is the attractive, bright fruit colouring on shaded fruits. To avoid cracking at the stalk cavity, a timely harvest is recommended.
