

Peach

Trademark: FIDELIA™
Variety: Zaifuro
Species: Peach, *Prunus persica*

Origin:	
Breeder, Place	Floyd Zaiger, California, USA
Intellectual property	Mondial Fruit Selection, France
Type, Selection	clone INFEL 562 I
Property rights	registered for EU trademark
Blossom:	
Blooming date, -intensity	medium blossom period with medium to high density
Fertility	self-fertile
Flower shape	rose shape
Frost susceptibility	low susceptibility of flower buds to winter frost
Fruit:	
Ripening time	medium, 7. peach week, 3-6 days after 'Redhaven'
Scale, shape	large, round, symmetrically even half-fruits
Skin	mostly smooth-skinned, hardly woolly skin
Colour	cream white ground colour, 80-90 % pink red to red, glossy over colour
Fruit flesh	cream white, fine texture, very juicy
Taste	sweet-aromatic
Stone separability	freestone
Storage	good
Tree:	
Vigour	medium to strong, semi-upright, healthy and dark green leaf
Crop load	high to very high
Evaluation:	The bright light red and white-fleshed peach impresses with its regular high yield combined with good fruit size and attractive exterior. In France and Austria this robust variety is recommended for organic agriculture.
